

MARINE COLLECTION

Exceptional watercrafts for discerning sea lovers

voga

Fabrication française en Méditerranée

Voga Marine, luxury watertoys inspired by Venice and classic runabouts

Voga Marine started with an encounter between Anthony, a young entrepreneur and sea lover with a strong sense of aesthetics and Frederic with more than 20 years of experience in marine shipyards and building prototypes and shapes for riders and major brands. He is a true passionate of hull design and composite materials with a natural inclination for bio-sourced materials. Both share a certain taste of challenge and performance.

Based halfway between Brutal Beach and Almanarre, two world renowned Mediterranean riding spots, Voga Marine specializes in high-performance foil boards on the one hand, and one-off bespoke watercrafts for the most discerning clients, on the other hand.

voga

Hand-made watercrafts with unlimited customization possibilities

Since 2020, we have produced unique paddle boards for superyachts from the most prestigious makers in the world that combine high-performance materials and yacht-grade finishings applied to the highest standards.

Among the multiple features available, our boards can be fitted with real teak-wood decking, stainless or titanium fittings, special paints and varnishes and custom-made traction pads of the highest quality.

We work closely with local marine suppliers and artisans to provide state-of-the-art accessories and decorative elements.
